Support Services for GoAhead WebServer™

Art & Logic, Inc. is GoAhead's support partner for GoAhead WebServer™. A wide range of support services is available for the open source product.

SUPPORT SERVICES

Two levels of support services are available:

Paid Support

Art & Logic can be retained on an hourly or weekly basis to provide timely engineering assistance to developers. For example, providing WebServer™ customizations, integrating onto a device, or porting to a previously unsupported platform.

Free Support

Art & Logic provides free, limited advice via the GoAhead WebServer™ newsgroup: <news://news.goahead.com/goahead.public.webserver>

USER INTERFACE DESIGN AND ENGINEERING SERVICES

Art & Logic provides user interface design and engineering services for embedded web applications. Art & Logic's understanding of embedded systems, UI design, and product branding produces highly usable and attractive user interfaces. Over 30 companies, including Hewlett-Packard, Motorola, Nortel Networks, and Broadcom have benefited from Art & Logic's expertise on their projects.

Examples of Art & Logic's work can be found at: <http://www.artlogic.com/ei>

ADDITIONAL FEATURES FOR WebServer™

Art & Logic develops and maintains several additional features for GoAhead WebServer™. Features include XML-RPC support, a uniform parameter access model, security and user management enhancements, rich error pages, cookie support, parameter validation, JavaScript libraries, Macromedia® Flash™ libraries, and much more.

Art & Logic can efficiently implement customizations to GoAhead WebServer™ to meet the individual needs of embedded product developers.
