

Software Release Notes

AnywhereUSB Manager for Windows

Version 10.1.19.160 (January 29, 2020)

INTRODUCTION

These are the release notes for AnywhereUSB Manager for Windows.

AnywhereUSB® Plus is a Remote USB 3.1 Hub that implements USB over IP® technology over Gigabit Ethernet networks. The Hub enables communication with USB-enabled devices from virtualized systems and from remote host computers. You can securely deploy AnywhereUSB® Plus Remote USB 3.1 Hubs in non-secure environments, making it ideal for point-of-sale, kiosks, surveillance, industrial automation, or any mission-critical enterprise application. This Gigabit Ethernet-attached solution provides 2, 8, or 24 USB 3.1 ports to connect a wide range of peripheral devices such as USB license dongles, scanners, printers, cameras, storage media, or other USB devices. The 8- and 24-port models provide support for 10 Gigabit Ethernet and include SFP+ interfaces.

To install, run the Windows Installer and follow prompts. Remember there are different installers for 32-bit and 64-bit Windows operating systems.

The AnywhereUSB Manager supports the AnywhereUSB Plus family of products:

- AnywhereUSB 2 Plus,
- AnywhereUSB 8 Plus
- AnywhereUSB 24 Plus.

The earlier AnywhereUSB products (AnywhereUSB 2, AnywhereUSB 5/5M, AnywhereUSB 14, and AnywhereUSB TS/44) use a different driver package. For more information, please refer to the AnywhereUSB product page.

SUPPORTED PRODUCTS

- AnywhereUSB Manager for Windows for 32-bit operating systems.
- AnywhereUSB Manager for Windows for 64-bit operating systems.

SUPPORTED Operating systems

- Windows 7
- Windows 8

- Windows 8.1
- Server 2008-R2
- Server 2012
- Server 2012-R2
- Server 2016
- Server 2019

Software Packages P/N's

KNOWN ISSUES

1. The AnywhereUSB Manager sometimes fails to generate desktop and “Start Menu” shortcuts when installing on Windows Servers 2012-R2, 2016, and 2019. If you should encounter this problem you can create your own shortcut(s). The path to the executable is :
“c:\Program Files\Digi\AnywhereUSBManager\awusbmanager.exe”
2. When you "Uninstall" the AnywhereUSB Manager from "Programs and Features" control panel, it will NOT remove your configuration settings. If you want to remove them, select "Change", select "Remove" in the "Program Maintenance" dialog, check "Remove User Configuration" and click "Next".

UPDATE BEST PRACTICES

Digi recommends the following best practices:

1. If an earlier version of the AnywhereUSB Manager is currently installed on your PC, uninstall it as follows:
 - a. Open the “Add or Remove Programs” control panel applet.
 - b. Right click on Digi AnywhereUSB Manager and select Uninstall (or Change if you want to remove the existing configuration)
 - c. Follow instructions.

TECHNICAL SUPPORT
