Quick Start Guide
ConnectPort® X3

(1P):90001069-88   B

2 Install Software

a Insert CD.

b Run setup, and follow the guided installation. If autorun does not automatically start the installation process, start the process manually by navigating to **Start > My Computer**, and double-clicking on the CD-ROM drive.

3 Connect Hardware

a Connect Antenna(s).

Antennas are as shown:

1 Cellular Antenna

2 XBee Antenna*

3 GPS Antenna*

* included with some models.

b Connect one end of the USB cable to the device and the other end to a PC.

c Insert SIM card as shown.

d Connect power supply. Always use the power supply provided as it is specifically designed for the ConnectPort® X3.
4 Configure Device

a Open Digi X3 Dashboard. By default, it is located at **Start > Digi > Digi X3 Dashboard > Digi X3 Dashboard**.

b Use X3 Dashboard to configure ConnectPort® X3 settings, such as the Mobile interface. To do so, go to the **Mobile** tab and configure the **Mobile Service Provider settings.** Click **OK** to apply the changes.

5 What's Next?

a Open Digi ESP™ for Python from the Desktop shortcut. On the Welcome screen, click on the **First Steps** icon and follow the steps in **Getting Started with ConnectPort® X Series**.

b To learn more about the Digi ESP™ for Python Integrated Development Environment (IDE), go to **Help > Help Contents > Digi ESP for Python** and read the chapter. It explains in detail all the concepts, views, controls and components of the IDE.
