

# Release Notes (93000809)

## Digi TransPort LR Product Family

Version 1.2.1.4 – November, 2016

### INTRODUCTION

This is a production firmware release for the Digi TransPort LR product family.

### SUPPORTED PRODUCTS

Digi TransPort LR54W  
Digi TransPort LR54

### SUPPORTED WEB BROWSERS

The following web browsers are supported with the web interface. The latest version and the previous version of each browser have been tested.

- Google Chrome
- Firefox
- Microsoft Internet Explorer 11
- Microsoft Edge

### KNOWN ISSUES

1. WPA2-Enterprise and WPA Mixed-mode Enterprise security are currently only supported in a single LAN [TLR-3817].
2. The “show ipsec” CLI command does not parse certain advanced ipsec settings properly and may return ERROR instead. This is a cosmetic issue [TLR-4136].
3. TransPort LR devices cannot be managed by Digi Remote Manager’s Profile Manager if profiles have site-specific settings [TLR-4788].
4. When configuring a WAN interface with 'probe-interval' and 'timeout', the 'probe-interval' must be less than the timeout interval, otherwise the default route may disappear [TLR-4888].
5. A fully qualified domain name (FQDN) cannot be used for configured a WAN interface “probe-host” [TLR-4908].
6. When changing a WAN interface “probe-host”, the device needs to be rebooted for the change to take effect [TLR-4907].

## **HISTORY**

### **1.2.1.4 – November, 2016**

#### **ENHANCEMENTS**

There are no enhancements in this release.

#### **BUG FIXES**

1. Verizon disconnect issue (TLR-5030, TLR-5132)
2. The “Skip Wizard” button would redirect the user to initial Getting Started Wizard page instead of the Dashboard. (URMA-918)
3. Getting Started Wizard would show an invalid firmware image on the firmware update page. (URMA-983)

### **1.2.0.10 – October, 2016**

#### **ENHANCEMENTS**

Our development has worked hard to deliver the following new features and enhancements:

1. Auto-carrier selection based on SIM for AT&T, Verizon and T-Mobile
2. Wi-Fi Alliance certification
3. Cellular modem firmware update
4. Improved Getting Started Wizard
5. Vastly improved web interface

#### **BUG FIXES**

4. Various.

### **1.1.0.6 – July, 2016**

Initial production release.

### **1.0.0.4 – May, 2016**

Internal release.
