Notice:
On November 29, 2010 the XBee-PRO XSC module production firmware was changed from 1020 to 1022. New revisions will be in stock and begin shipping on January 15, 2011.

Details:
This update fixed a flow control bug that caused the module to lock up if RTS was held high for too long. This bug only occurred when the UART had data in its buffer.

Additional Information:
For customers who wish to test the new 1022 firmware, it is available now for download by using X-CTU > Modem Configuration tab > Download new versions … button > Web.
