("ICS Triplex ISaGRAF") or its authorized Distributor - OEM Technology Solutions (the "Distributor") for the ICS Triplex ISaGRAF and ISaGRAF software products.

SOFTWARE PRODUCT LICENSE

The Software Product is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The Software Product is licensed, not sold.

1. GRANT OF LICENSE. This Software License Agreement grants The Customer the following rights:

Software. The Customer may install and use one copy of the Software Product, or in its place, any prior version.

Storage/Network Use. The Customer may also store or install a copy of the Software Product on a storage device, such as a network server, used only to install or run the Software Product on the Customer's other computers across an internal network. However, the Customer must acquire and dedicate a license for each separate computer on which the Software Product is installed or run from the storage device. A single license for the Software Product may not be shared or used concurrently on different computers.

2. DESCRIPTION OF SERVICES

The Software Product will be delivered to the Customer in machine-executable code form with current documentation containing detailed specifications for use of the current Software Product version.

During the initial three-month period following delivery of this Software License Agreement, the Distributor shall provide telephone support for the Software Product at no charge. For each subsequent twelve-month period following the end of the initial three-month period, the Customer

will be required to pay, in advance to the Distributor, the current rate for such services including software upgrades.

3. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

Limitations on Reverse Engineering, Decompilation, and Disassembly: the Customer may not reverse engineer, decompile, or disassemble the Software Product, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

Separation of Components. The Software Product is modular. Each module making up the ISaGRAF suite and elected by Licensee can only be used in a single instance.

Rental: The Customer may not rent or lease the Software Product.

Software Transfer: The Customer may permanently transfer all of its rights under this Software License Agreement, provided the Customer retains no copies, transfers all of the Software Product (including all components, the media and printed materials, any upgrades, this Software License Agreement, and, if applicable, the Certificate of Authenticity), and the Recipient agrees to the terms of this Software License Product. If the Software Product is an upgrade, any transfer must include all prior versions of the Software Product.

Termination. Without prejudice to any other rights, the Distributor may terminate this Software License Agreement if the Customer fails to comply with the terms and conditions of this Software License Agreement. In such an event, the Customer must destroy all copies of the Software Product and all of its component parts.

4. UPGRADES. If the Software Product is an upgrade from another product, either from ICS Triplex ISaGRAF or another supplier, the Customer may use or transfer the Software Product only in conjunction with that upgraded product, unless the Customer destroys the upgraded product. If the Software Product is an upgrade of an ICS Triplex ISaGRAF product, the Customer can then use that upgrade product only in accordance with this Software License Agreement. If the Software Product is an upgrade of a component of a package of software programs that the Customer licensed as a single product, the Software Product may be used and transferred only as part of that single product package and may not be separated for use on more than one computer.

5. COPYRIGHT. All titles and copyrights in and to the Software Product (including but not limited to any images, photographs, animations, video, audio, music, text, and "applets" incorporated into the Software Product), the accompanying printed materials, and any copies of the Software Product, are owned by ICS Triplex ISaGRAF. The Customer may not copy the printed materials accompanying the Software Product.

The Customer will not remove or destroy any copyright, trademark, proprietary marking, or legends placed on or contained in the Software Product, unless authorized in writing by ICS Triplex ISaGRAF.

If the Software Product does not operate in such substantial or material conformity, the Distributor's only obligation and liability to the Customer or any other person under this Agreement will be, at the Distributor's option, to correct or replace the Software Product so that it performs in accordance with the Software Product documentation or to refund the applicable payments for the Software Product upon return of the applicable Software Product materials.

The Customer acknowledges that the limited warranty, as stated in this paragraph, is in lieu of all other warranties, express or implied, including but not limited to the manufacturer's warranties of merchantability, quality, fitness for a particular purpose, functionality or economic benefit, and is the only warranty made in connection with the Software Product, support services or other assistance. The warranty provisions of the applicable law are hereby expressly excluded to the extent permitted.

Without limiting the generality of the foregoing, ICS Triplex ISaGRAF makes no warranty that the Software Product shall operate with any hardware or software other than that specified by the current product documentation, that the licensed software shall satisfy the Customer's own specific requirements, that copies of the Software Product other than those provided or authorized by ICS Triplex ISaGRAF shall possess functional integrity or that the operation of the licensed software shall be free from defects.

Except to the extent that liability may not lawfully be excluded in an agreement of this nature, the Distributor and ICS Triplex ISaGRAF shall not be liable to any person or entity for loss or damage, whether direct, indirect, special, incidental or consequential damages including without limitation damages for loss of business profits, business interruption and the like, arising out of the use or inability to use the Software Product, any documentation, manual or training relating thereto, including without limitation arising out of its generated applications, even if advised of the possibility of such damages, whether resulting from a breach of contract or a breach of warranty. The entire risk as to the results and performance of the Software Product is assumed by the Customer. In any event, ICS Triplex ISaGRAF shall not be held liable for any amounts exceeding the cost of the license fee.

The limited warranty shall become void, and ICS Triplex ISaGRAF or any other person shall be released from all obligations of performance and all liability in the event that the Software Product is modified by anyone other than ICS Triplex ISaGRAF or if support services are rendered by anyone other than ICS Triplex ISaGRAF or the Distributor.
