

1 Verify kit contents

Not included: A SIM card must be supplied and activated by a Cellular Service Provider for device operation.

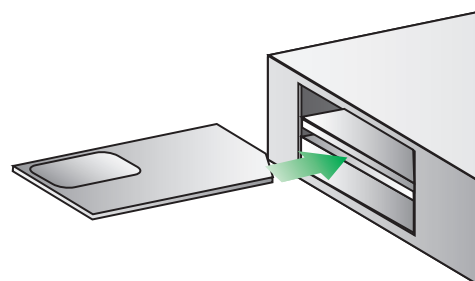

Quick Start Guide

Digi Connect™ WAN

2 Insert SIM card

- Orient SIM card with metal side up and short corner to the inside. Use caution to insure card is properly seated in SIM slot.

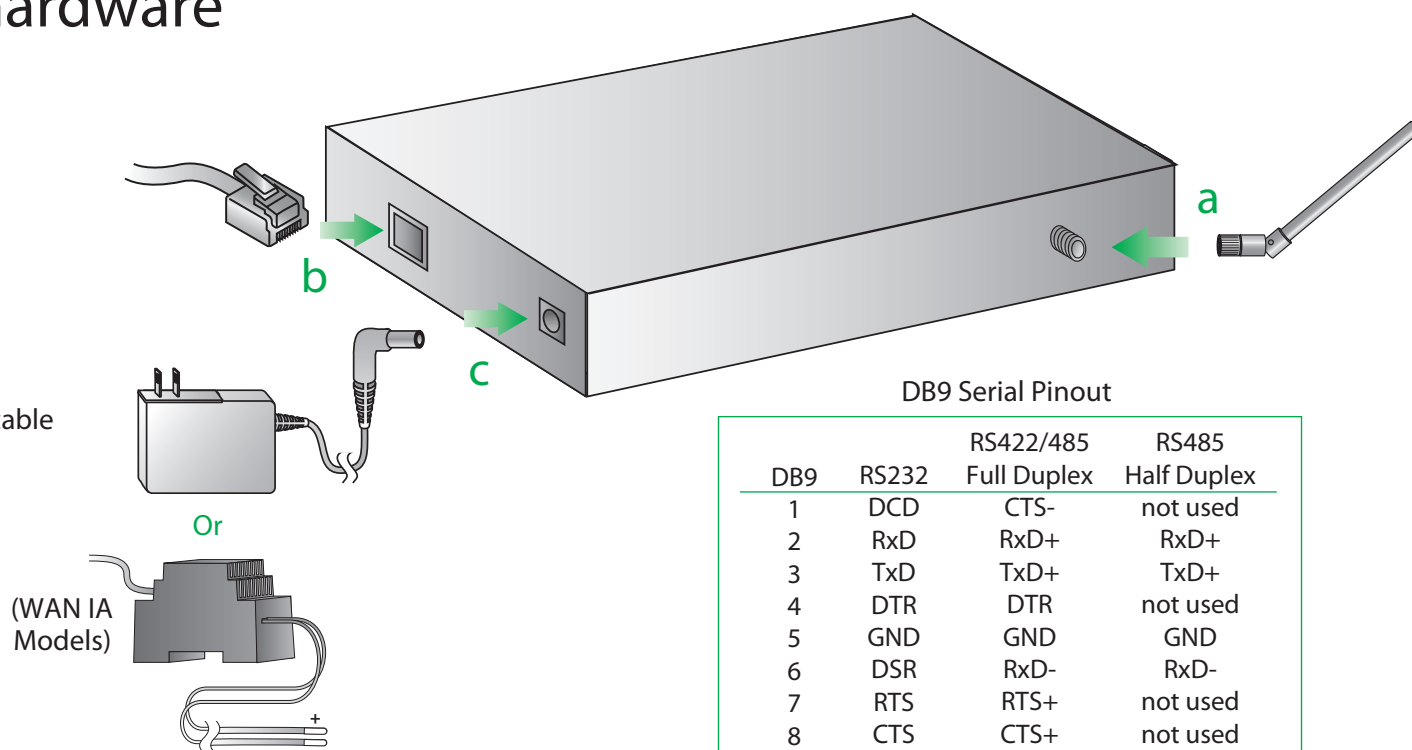

3 Connect hardware

- Connect Antenna

NOTE: Do not over-tighten antenna. Over-tightening may damage internal connections. Loosen antenna before adjusting antenna angles.

- Connect Ethernet cross-over cable to a PC

- Connect Power Supply

DB9 Serial Pinout

| DB9 | RS232 | RS422/485 Full Duplex | RS485 Half Duplex |
|-----|-------|-----------------------|-------------------|
| 1 | DCD | CTS- | not used |
| 2 | RxD | RxD+ | RxD+ |
| 3 | TxD | TxD+ | TxD+ |
| 4 | DTR | DTR | not used |
| 5 | GND | GND | GND |
| 6 | DSR | RxD- | RxD- |
| 7 | RTS | RTS+ | not used |
| 8 | CTS | CTS+ | not used |
| 9 | RI | TxD- | TxD- |

NOTE: Set serial mode in software then on the web interface go to Configuration/Serial Ports

4 Configure your cellular settings

- Open your web browser and enter the IP address 192.168.1.1 in the URL address bar.
- From the web interface, under Configuration, click "Mobile." Enter your service provider name and connection parameters and click "Apply."

NOTE: The Digi Connect™ WAN has DHCP server enabled by default. In order to discover your Digi device, make sure your host computer is set up to obtain IP addresses automatically. Also ensure all firewall software is temporarily disabled.

5 Verify

- Your device has been properly provisioned and is active if the PPP section shows (connected).
- Remove the Ethernet cable and plug it back into the PC to update the DNS.
- Open a web browser and enter a web site of your choice in the URL address bar of your browser and hit "enter" (e.g. www.digi.com).
- For additional information about your cellular connection, go to **Administration > System Information > Mobile**.
- For more information on the Digi Connect™ WAN reference the User's Guide provided on the Digi support site (www.digi.com/support).
